

Above Ground Gravity Feed Filters

Pond Filtration Systems

A good pond filter which works biologically and mechanically is the key to managing your pond effectively. Biological filtration is the removal of all pollutants by "friendly" bacteria which gradually becomes established on the filter media. It follows then that the most effective filter from a biological viewpoint is the one with the greatest amount of surface for the bacteria to grow on. Mechanical filtration can best be likened to a "straining" process where the effectiveness of the media is related both to the size of hole in the "strainer" and the total "straining" area provided.

THE GREEN MACHINE™ 1500-2500-4000-60000

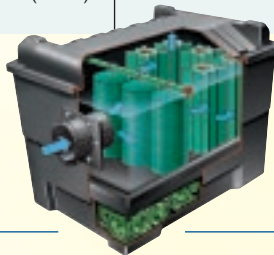

(UK Patent Application 2146255, Other Patents and Design Rights Pending)

Low-cost pumped versions of our highly successful SC3P Guarantee Performance systems, these really are "the business. Low maintenance through the use of brushes and Cyprio BIOCARTRIDGES. High performance from our revolutionary new CYPRIKAC BIOMEDIA. Plus, like all other Cyprio external filters, PERFORMANCE GUARANTEED, when used with integral Cyprio UVC.

MODEL	DESCRIPTION / CONTENTS	MAX POND VOLUME		MAX. FLOW RATE GPH (1 hr)
		Gallons (Liters) Goldfish	Koi	
GM1500 18" x 12" x 12" deep (457mmx305mmx305mm)	3/4"-1" hose onto spray-bar, 3x4" brushes, 4x4" sq. Biocartridges. Single 1.5" outlet. Cypricell Biomedia.	1500 (6750)	1000 (4500)	750(3350)
GM2500 25" x 18" x 19" deep (635mmx457mmx483mm)	3/4"-1.5" hose onto 1.25" spray-bar, 10x4" brushes, 6x4" sq. Biocartridges. Twin 1.5" outlets. Cypripak Biomedia.		2500 (11250)	1800(8000)
GM4000 28" x 21" x 24" deep (910mmx533mmx610mm)	3/4"-1.5" hose onto 1.25" spray-bar, 10x4" brushes, 9x4.5" sq. Biocartridges. Single 3" outlets. Cypripak Biomedia.		4000 (18000)	2700(12000)
GM6000 37" x 24" x 26" deep (940mmx610mmx660mm)	3/4"-1.5" hose onto 1.25" spray-bar, 18x4" brushes, 12x4.5" sq. Biocartridges. Single 3" outlets. Cypripak Biomedia.		6000 (27000)	4000(175000)

GM2500 Fits 1/2", 5/8", 3/4" & 1" hose

Non-clog high intensity spray bars fit 3/4" - 1-1/2" hose

Return to pond 1-1/2" or 3"

Pond Spillway Filter

BF2500 45 gal. 36" x 30" x 22"
Designed for up to 6000 GPH

ORDER CODE:
BF2500-PG11

Atlantic Advantages

- Spillway enhances waterfall and aerates water
- Water flows evenly and efficiently through filter pads & media
- Usually requires only annual cleaning

Pond Spillway Filter

BF2000 35 gal. 10 Lb. 38" x 30" x 18"
A bio-filter is designed for up to 2000 gal.

ORDER CODE: BF2000-PG11

Atlantic Filter Falls

BF1000 6 gal. 20"L x 15"W x 15"H
Designed for up to 2400 GPH

ORDER CODE:
BF1000-PG11

Atlantic Advantages

- Extra wide spillway enhances the waterfall and aerates the water;
- Open swirl chamber means water flows evenly and efficiently through filter pad and media.
- Three separate filtering actions for super clear water.
- Designed to be camouflaged with natural materials and plants.
- Extra large container holds more bacteria for a cleaner pond.
- Container is ruggedly built from high molecular weight polyethylene (HMWPE) and warranted for life.

PF3

PF2

PF1

TETRA Clearchoice Biofilters Suitable for Koi ponds

PF3 Suitable for fish ponds up to 2400 gallons
Filter size: Diameter - 15 1/4"
Height - 22 1/2"
Maximum Flow - 1000 GPH
ORDER CODE: 16781-PG11

PF2 Suitable for fish ponds up to 1800 gallons
Filter size: Diameter - 15 1/4"
Height - 17 1/2"
Maximum Flow - 750 GPH
ORDER CODE: 16782-PG11

PF1 Suitable for fish ponds up to 1200 gallons
Filter size: Diameter - 15 1/4"
Height - 12 1/2"
Maximum Flow - 500 GPH
ORDER CODE: 16783-PG11

Maintaining a healthy pond for ornamental fish requires biofiltration to remove ammonia and other contaminants. Tetra introduces the Clearchoice in biofiltration with trickle-flow technology, providing efficient biofiltration in a compact system.

The Clearchoice Advantage

- Trickle-flow and Bio Ring media create the optimum environment for natural ammonia digesting bacteria.
- Coarse and fine mechanical filtration mats remove debris to improve water clarity.
- Activated carbon pad removes odors and improves water clarity.
- Venturi, overflow and internal spray system enhance and protect bioactivity.
- Modular construction makes installation and maintenance simple.
